

AdvancedWare is Pleased to Present AWMail for Avanté - \$500

AWMail lets you automatically trigger an email to any email address based upon an event occurring in your Avanté system. Features of AWMail include attachments, html or text formats, carbon copies and blind carbon copies, delivery notifications, and more. AWMail also works with any email system such as Exchange, Notes, etc.

Here are some examples of AWMail triggers:

- 1. Automatically emails shipment details to customers whenever products are shipped to them and even include a hyperlink to the carrier's web site for the tracking number.
- 2. Automatically emails the credit manager whenever a large order is put on hold and even include the customer's previous order information.
- 3. Automatically emails the CEO & VP of Sales whenever an order is booked that is over \$50,000 and even include the name of the sales person who booked the order.
- 4. Automatically emails collection letters to customers that are overdue and even vary the text of the message based upon how much they are overdue.
