AdvancedWare is Pleased to Present AWmWOMaterial&Labor for DataFlo - \$8,500

AWmWOMaterial&Labor provides a very efficient way of handling Work Order Material Movements and Labor Tracking for your DataFlo system. With AWmWOMaterial&Labor, your company will be able to use a Wireless Mobile Device (or PC with scanner) to handle these transactions and your DataFlo system will automatically be updated in Real-Time.

AWmWOMaterial&Labor provides a simple graphical interface on the Wireless Device, which enables your employees to scan or enter any information. With AWmWOMaterial&Labor, your information accuracy is much higher. And since all transactions are recorded in Real-Time, the system always reflects the true current status. Imagine the efficiencies gained in the Labor Tracking area by no longer having to fill out and manually key in paper time cards. Also, think about how streamlined your WO Material Movements will be when you no longer have to manually track each movement and then key it back into the system.

Initially Clocking In

The screenshot shows the 'Labor Tracking' interface for the date and time '7/2/2019 - 03:28 PM'. At the top, it displays 'Employee ID 9114' and 'Michael Jordan' with a 'Cancel' button. Below this is a 'Start New Job' button. The main form contains the following fields: 'Work Order' with value 'AW1', 'Part Number' with value 'PARTA', 'Description' with value 'PARTA Description', and 'Operation' with value '700'. At the bottom, it says 'SMALL CELL 1' and has a 'Clock In' button.

Recording Completion Quantity

The screenshot shows the 'Labor Tracking' interface for the date and time '7/2/2019 - 03:28 PM'. At the top, it displays 'Employee ID 9114' and 'Michael Jordan' with a 'Cancel' button. Below this is a 'Job Completion' button. The main form contains the following fields: 'Work Order' with value 'AW1', 'Part Number' with value 'PARTA', 'Description' with value 'PART Desc', 'Operation' with value '700', 'Open Qty' with value '68', and 'Completed Qty' with a value of '5' entered in a text box. To the right of these fields are 'Scrap Qty' and 'Scrap Code' fields, with a 'Scrap Codes' dropdown menu.

Our Turnkey Approach: For the price of \$8,500, AWmWOMaterial&Labor allows your company to perform the WO Material Movement and Labor Tracking functions in the DataFlo system in Real-Time using a Wireless Mobile Device (or PC with scanner). And best of all, AWmWOMaterial&Labor works with any release of DataFlo, even if you have customization.
