AdvancedWare is Pleased to Present AWmShipping for Epicor Kinetic - $8,500
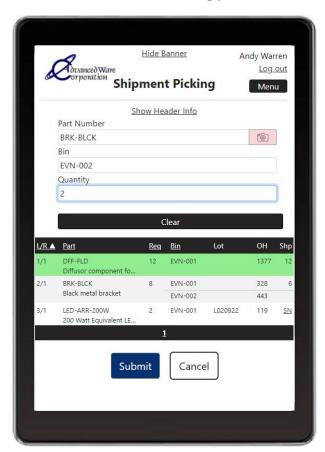

AWmShipping enables your company to use a Wireless Mobile Device to efficiently pick the products for shipment to your customers. And best of all, the transactions in your Epicor Kinetic system are performed by AWmShipping automatically and in Real-Time. Using a graphical interface on the Wireless Device, picking the products to be shipped is handled through these simple steps:

- The Wireless Device will display a list of all open shipments and you can select one.
- In Real-Time, AWmShipping will display from your Epicor Kinetic system the details of what needs to be picked. Note: The display will also show inventory quantities and the bin locations they reside in.
- Simply enter (or scan) the actual quantities picked, and AWmShipping will automatically update your Epicor Kinetic system.

Display showing open shipments

Picklist 1234560-1 being picked

Our Turnkey Approach: For the price of $8,500, AWmShipping allows your company to perform shipment picking in the Epicor Kinetic system in Real-Time using a Wireless Mobile Device. And best of all, AWmShipping works with any release of Epicor Kinetic, even if you have customization.

To arrange for a demonstration or to order your copy of AWmShipping please give us a call at (949) 609-1240
