AdvancedWare Presents AWmStockQuery&Move for Epicor Kinetic - \$8,500

With AWmStockQuery&Move, your users will have the ability to quickly and accurately perform Stock Movements by simply scanning the information on a Wireless Mobile Device. Also, users can scan an item and easily view critical information on the product, including On-Hand & Available Quantities for one or more Inventory Locations. The ability to see details for Bins, Lots and Serial Numbers is built in as well.

AWmStockQuery&Move is fully integrated with the Epicor Kinetic system and all information & transactions happen in Real-Time. The simple graphical interface in AWmStockQuery&Move is both fast and easy. You are going to be amazed at the accuracy and efficiency you will achieve with AWmStockQuery&Move!

Performing Stock Movement

The screenshot shows the 'Inventory Transfer' screen. At the top, there is a 'Hide Banner' link, the user name 'Andy Warren', and a 'Log out' link. The 'Inventory Transfer' title is prominently displayed. Below this, there are two dropdown menus for 'From Whse:' and 'To Whse:', both set to 'Evanston - Main (EVN)'. The 'Part Num:' field contains 'LED-ARR-80W' with a camera icon and a 'View Stock' button. Below the part number, the text '80 Watt Equivalent LED Array' is visible. A 'Move Requests' section has a 'Clear Part' button. The 'From Bin:' field is 'EVN-001' with an onhand quantity of 1793. The 'To Bin:' field is 'EVN-002' with an onhand quantity of 190. The 'Quantity:' field is set to '12' with a 'Clear Bins' button. A 'Reference:' field is empty. At the bottom, there are 'Submit Transfer' and 'Cancel' buttons.

The screenshot shows the 'Inventory Query' screen. At the top, there is a 'Hide Banner' link, the user name 'Andy Warren', and a 'Log out' link. The 'Inventory Transfer' title is prominently displayed. Below this, there are two dropdown menus for 'From Whse:' and 'To Whse:', both set to 'Evanston - Main (EVN)'. The 'Part Num:' field contains 'LED-ARR-80W' with a camera icon and a 'View Stock' button. An 'Inventory Query' modal window is open, showing a table with columns 'Warehouse', 'Bin', and 'Onhand Qty'. The table contains the following data:

Warehouse	Bin	Onhand Qty
EVN	EVN-001	1793
EVN	EVN-002	190
EVN	EVN-005	2
IRV	IRV-001	15

Below the table, there is a 'Close' button. A 'Clear Bins' button is also visible. At the bottom, there are 'Submit Transfer' and 'Cancel' buttons.

Our Turnkey Approach: For the price of \$8,500, AWmStockQuery&Move allows your company to perform the Stock Movement and Query functions in the Epicor Kinetic system in Real-Time using a Wireless Mobile Device. And best of all, AWmStockQuery&Move works with your release of Epicor Kinetic, even if you have customization.
