

Delivering Exceptional Services & Software Every Time

AWmWOPick
\$8,500

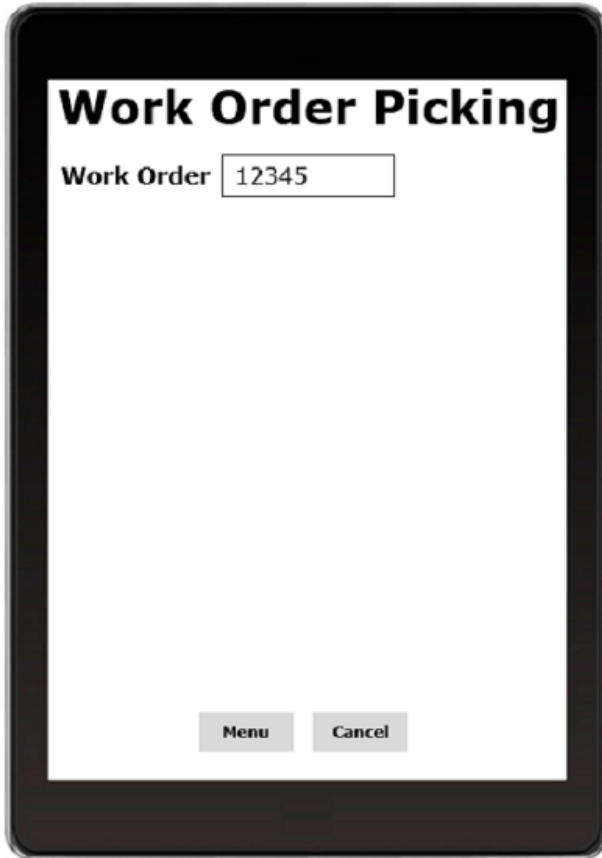

AdvancedWare is Pleased to Present AWmWOPick for MANAGE 2000 - \$8,500

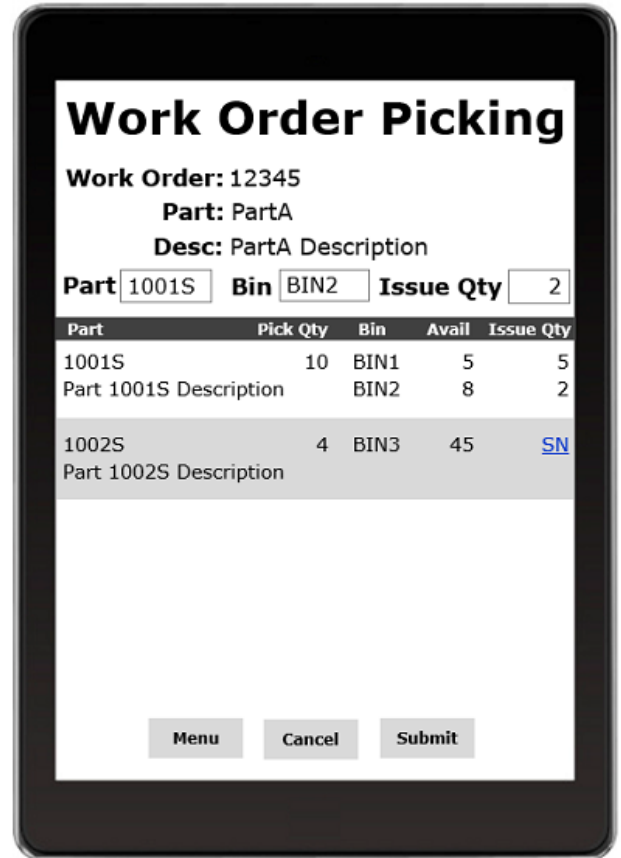

AWmWOPick enables your company to use a Wireless Mobile Device to efficiently pick the parts needed for a Work Order. And best of all, the transactions in your MANAGE 2000 system are performed by AWmWOPick automatically and in Real-Time. Using a graphical interface on the Wireless Device, picking the products for a Work Order is handled through these simple steps:

- Simply scan (or enter) the Work Order to be picked.
- In Real-Time, AWmWOPick will display from the MANAGE 2000 system the parts that need to be picked for that Work Order. The display also shows the inventory quantities you have for the parts and what bin locations they reside in.
- Simply enter (or scan) the actual quantities picked, and AWmWOPick will automatically update your MANAGE 2000 system in Real-Time.

Scan (or enter) the Work Order to be Picked

Work Order 12345 – Being Picked

Our Turnkey Approach: For the price of \$8,500, AWmWOPick allows your company to perform Work Order picking in the MANAGE 2000 system in Real-Time using a Wireless Mobile Device. And best of all, AWmWOPick works with any release of MANAGE 2000, even if you have customization.
