

Delivering Exceptional Services & Software Every Time

AdvancedWare is Pleased to Present AWFedExInterface for ManFact - \$4,000

The AWFedExInterface product automatically loads from your ManFact system all the information required by FedEx for a shipment. Once you complete the shipment in the FedEx system, all the information such as Shipment Cost, Total Weight, Number of Packages, and Tracking Number(s) are then automatically loaded into your ManFact system. AWFedExInterface streamlines the shipment process and eliminates errors caused by having to maintain redundant customer address information.

Below you can see the flow of the AWFedExInterface process. In one simple step, the information is automatically loaded into the FedEx system and is ready to be processed. Then, with a click of the mouse the information is automatically loaded from FedEx into your ManFact system.

Sending Shipment Information to FedEx Ship Manager from ManFact.

Receiving into ManFact the Shipment Cost, Total Weight, Number of Packages and Tracking Number(s) from FedEx Ship Manager.

The screenshot shows the ManFact interface on the left and the FedEx Ship Manager interface on the right. The ManFact interface displays shipment details for Shipment 1012, including customer information, address (13844 Alton Parkway, Suite 136, Irvine, CA 92618), and shipping options (Next Day Air). The FedEx Ship Manager interface shows recipient information (Alfonso Jimenez, 13844 Alton Parkway, Irvine, CA 92618) and package details (1 package, 2.6 lbs, \$17.25). Arrows indicate the bidirectional flow of data between the two systems.

Our Turnkey Approach: For the price of \$4,000, AWFedExInterface includes the combination of products and services needed for your company to be up and running live. We include the installation and setup of AWFedExInterface on your system and full integration to your release of ManFact, even if you have customization.

The Bottom Line: With AWFedExInterface, your users will be able to ship directly from your ManFact system using FedEx and capture all the required information in a snap. Best of all, AWFedExInterface provides an unlimited license to run on as many shipping stations as you like.
