AdvancedWare Corporation

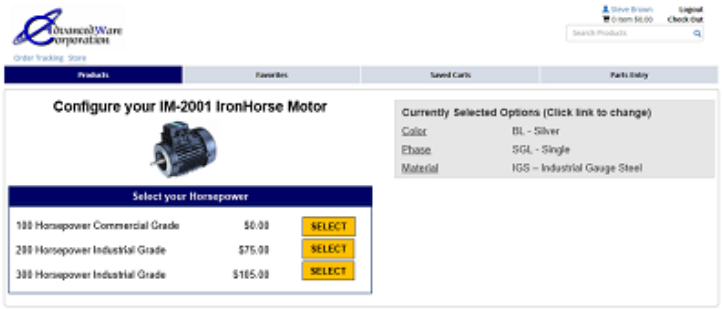
Delivering Exceptional Services & Software Every Time

AWWebConfig
$16,500

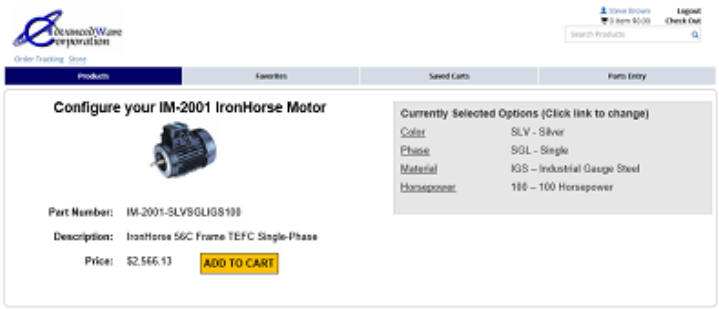
AdvancedWare is Pleased to Present AWWebConfig for Avanté - $16,500

AWWebConfig will enable your company's Web site to process Real-Time Orders for Configured Products via the Web. With AWWebConfig your Customers, Distributors and Consumers will be purchasing your Configured Products on-line. In all cases, the process of configuring a product is Real-Time integrated with the Avanté Configurator. When users (via the Web) select a Configured Product (i.e., setup in Avanté as a product that goes through the configurator) then the page displayed in the Storefront gets its page information (options, configuration rules, pricing, etc.) all in Real-Time from the Avanté configurator.

Example of User Configuring a product – everything is integrated with the Avanté Configurator in Real-Time. For instance, if the user selects an option that changes the price or “turns on” or “turns off” other options, etc. then the Web Page will automatically do the same thing.



Cart View Example - The user can add other Configured or non-configured products and place the Order. The Order will be generated in Real-Time into Avanté with all of the Avanté business rules/logic executed.



Our Turnkey Approach: For the turnkey price of $16,500, AWWebConfig is the perfect add on to AWWebStore to enable your Customers to purchase Configured Products via the Web. The $16,500 price includes all installation and integration services to have you up and running live.

To arrange for a demonstration or to order your copy of AWWebConfig please give us a call at (949) 609-1240
