AWmJobPick
\$8,500

AdvancedWare is Pleased to Present AWmJobPick for Epicor 9 - \$8,500

AWmJobPick enables your company to use a Wireless Mobile Device to efficiently pick the parts needed for a Job. And best of all, the transactions in your Epicor 9 system are performed by AWmJobPick automatically and in Real-Time. Using a graphical interface on the Wireless Device, picking the products for a Job is handled through these simple steps:

- Simply scan (or enter) the Job to be picked.
- In Real-Time, AWmJobPick will display from your Epicor 9 system the parts that need to be picked for that Job. The display also shows the inventory quantities you have for the parts and what bin locations they reside in.
- Simply enter (or scan) the actual quantities picked, and AWmJobPick will automatically update your Epicor 9 system in Real-Time.
