AWmShipping
\$8,500

AdvancedWare is Pleased to Present AWmShipping for Epicor 9 - \$8,500

AWmShipping enables your company to use a Wireless Mobile Device to efficiently pick the products for shipment to your customers. And best of all, the transactions in your Epicor 9 system are performed by AWmShipping automatically and in Real-Time. Using a graphical interface on the Wireless Device, picking the products to be shipped is handled through these simple steps:

- The Wireless Device will display a list of all open shipments and you can select one.
- In Real-Time, AWmShipping will display from your Epicor 9 system the details of what needs to be picked. Note: The display will also show inventory quantities and the bin locations they reside in.
- Simply enter (or scan) the actual quantities picked, and AWmShipping will automatically update your Epicor 9 system.
