

Delivering Exceptional Services & Software Every Time

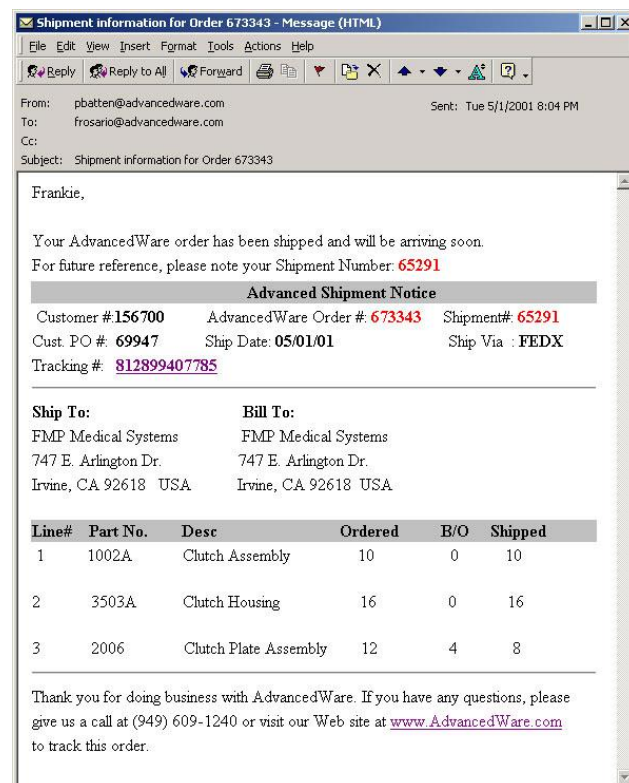

## AdvancedWare is Pleased to Present AWMail for ManFact - \$500

AWMail lets you automatically trigger an email to any email address based upon an event occurring in your ManFact system. Features of AWMail include attachments, html or text formats, carbon copies and blind carbon copies, delivery notifications, and more. AWMail also works with any email system such as Exchange, Notes, etc.

### Here are some examples of AWMail triggers:

1. Automatically emails shipment details to customers whenever products are shipped to them and even include a hyperlink to the carrier's web site for the tracking number.
2. Automatically emails the credit manager whenever a large order is put on hold and even include the customer's previous order information.
3. Automatically emails the CEO & VP of Sales whenever an order is booked that is over \$50,000 and even include the name of the sales person who booked the order.
4. Automatically emails collection letters to customers that are overdue and even vary the text of the message based upon how much they are overdue.

### Example of an AWMail Shipment Trigger:

**Our Turnkey Approach:** For the price of \$500, AWMail includes the combination of products and services needed for your company to be up and running live. In fact, included in this price is the delivery of any AWMail trigger of your choice such as the samples mentioned above.

**The Bottom Line:** With AWMail you will have the ability to setup an unlimited number of AWMail triggers which can be automatically generated from your ManFact system.
